

CeCera
its whiteness and translucence
are essence of porcelain.

1. Quality

Selected Materials

“Amakusa pottery stone” is mined from Amakusa city, Kumamoto-pref in Japan, which contains high quality feldspar, silica rock., and clay. “New Zealand kaolin” is famous for high quality clay.

2. "Elegant"

CeCera has high quality translucency.

3. HISTORY

Made in Toki city Gifu pref.
Toki is a historical and the biggest city for pottery industry in Japan.
We have produced porcelain in our factory over a half of century.
